

Safety Data Sheet

According to REACH Regulation (EC) No.1907/2006, Annex II

PRODUCT NAME / CODE: 505010 - SHAVING FOAM

Date of issue: 13/08/09

1. Identification of substance / preparation

- Trade Name: Shaving Foam
- Use of the substance /preparation: Shaving foam
- Company/undertaking identification

**Overseas Trading Limited,
Top Floor Tayson House,
Methley Road,
Castleford,
WF10 1PA
Tel: +44 (0)1977 512 244
Fax: +44 (0) 1977 512 688
Email: sales@otltd.co.uk**

Further information available from: www.otltd.co.uk

Emergency telephone: +44 (0)1977 512 244

2. Hazards identification

Physical/Chemical Hazards:

Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C. Do not pierce or burn, even after use. Do not spray on a naked flame or any incandescent material", unless the aerosol dispenser is designed for that purpose

Human health hazards

Eyes: Direct contact may cause mild, transient irritation. Some redness and/or stinging may occur.

Skin: Not expected to be irritating, sensitizing, photo allergenic or phototoxic when used as intended.

Ingestion: Not applicable under normal condition of use. If accidentally ingested, may cause mild gastrointestinal irritation with nausea and vomiting.

Inhalation: Not expected to be irritating to the respiratory system.

Environmental Hazards: Not considered harmful to aquatic organisms.

Composition / information on ingredients

EC Chemical name	CAS / EINECS Number	EC Classification
BUTANE	106-97-8	
PROPANE	74-98-6	
WATER	7732-18-5	
TRIETHANOLAMINE	102-71-6	
ISOPROPYL PALMITATE	142-91-6	
SORBITOL	50-70-4	
STEARIC ACID	57-11-4	
FRAGRANCE	PROPRIETARY	

3. First aid measures

Eyes: Flush eyes with large amounts of water for 15 minutes. If irritation persists, seek medical attention.

Skin: Wash thoroughly with soap and water. Remove contaminated clothing and lauder before re-use. Seek medical attention if irritation persists.

Ingestion: Unlikely. But if accidentally ingested, do NOT induce vomiting, seek medical attention immediately.

Inhalation: Remove to fresh air. Seek medical attention if necessary.

4. Fire-fighting measures

Flash Point:	NA	Method Used:	NA
Upper Flammable Limit (UFL):	NA	Lower Flammable Limit (LFL):	NA

General Fire Hazards

Pressurized containers may explode (due to the build-up of pressure) when exposed to extreme heat.

Hazardous Combustion Products

This product may decompose in fire, releasing carbon dioxide and carbon monoxide.

Extinguishing Media

Carbon dioxide, dry chemical, alcohol foam

Fire Fighting Equipment/Instructions

Full protective equipment including self-contained breathing apparatus should be used.

Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool fire-exposed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

5. Accidental release measures

Personal Precautions

Aerosol products do not spill. In case of puncture, eliminate all sources of ignition or flammables that may come into contact with a spill of this material.

Clean-Up Procedures

Stop source of leak if possible. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, Scoop up used absorbent into drums or other appropriate container.

Shovel the material into waste container and dispose of spent absorbent in an approved industrial waste landfill.

6. Handling and storage

Handling: Keep out of reach of children. Use only as directed.

Containers under pressure. Do not puncture, incinerate, or expose to temperature above 50 °C

Storage: Store in a well-ventilated place.

Avoid freezing or extremely heat to prevent bursting of the container.

Avoid exposure to direct sunlight, radiators, stoves, hot water, and other heat sources.

7. Exposure controls / personal protection

General precautions:

Respiratory protection: Not normally required.

Hand protection: Not normally required.

Eye protection: Not normally required.

8. Physical and chemical properties

Form: Foam /gel

Colour: White

Odour: Fragrant

Flammable: Yes

Solubility in water: Soluble

9. Stability and reactivity

Stability: Stable material

Conditions/substances to avoid: Do not freeze. Do not expose to direct sunlight and temperatures exceeding 50 °C.

Avoid contact strong oxidizing or corrosive agents.

Hazardous decomposition products: None

10. Toxicological information

Acute toxicity: None expected during normal use

Primary effects: None expected during normal use

After skin contact: None expected during normal use

After eye contact: None expected during normal use

Sensitization: There have been several reports of persons becoming sensitized to Triethanolamine as an ingredient of cutting oils or detergents.

11. Ecological information

Environmental toxicity:

Persistence and degradability:

Other adverse effects:

12. Disposal considerations

Product: Do not crush, puncture or incinerate spent containers.
Large numbers of aerosol containers may require handling as a hazardous waste.
Dispose of in accordance with local environmental regulations or local authority requirements.

Packaging: Do not crush, puncture or incinerate spent containers.
Large numbers of aerosol containers may require handling as a hazardous waste.
Dispose of in accordance with local environmental regulations or local authority requirements.

13. Transport information

Land transport ADR/RID:

Class: 2
UN Number: 1950
Label: 2.1
Packaging group: II
Proper shipping name: Aerosols, flammable

Maritime transport IMDG:

Class: 2
UN Number: 1950
Label: 2.1
Packaging group: II
Proper shipping name: Aerosols, flammable

Air transport IATA/ICAO:

Class: 2
UN Number: 1950
Label: 2.1
Packaging group: II
Proper shipping name: Aerosols, flammable

14. Regulatory information

Hazard symbols

F+ Extremely flammable

Risk phrases applicable:

R12: Extremely flammable

Safety phrases applicable:

S2: Keep out of the reach of children

S16: Keep away from sources of ignition – No smoking.

S23: Do not breathe spray.

S51: Use only in well-ventilated areas.

15. Other information

Relevant R-phrases:

R8: Contact with combustible material may cause fire.

R11: Highly flammable

R25: Toxic if swallowed

R50: Very toxic to aquatic organisms

Key/Legend

NA = Not available or Not Applicable. ND = Not determined or No data. MAC = Maximum Allowable Concentration. TWA = Time Weighted Average. ACGIH =

American Conference of Governmental Industrial Hygienists. IARC = International Agency for Research on Cancer. TSCA = Toxic Substance Control Act. DSL = Domestic Substances List (Canada). EINECS = European Inventory of Existing Commercial Substances; IECSC = Inventory of Existing Chemical Substances.
